## Biggest mysteries in the world that we are trying to solve:

- Are we alone in the Universe
- Teleportation
- Content of woman's bag
- How Nobel prize missed ICANN by just one *N*
- **IDN email**

# Alien in domain Universe> IDN email

- It's not called IDN email but EAI
- EAI standard was created in 2013
- It works

And therefor

- **MYSTERY SOLVED**

# DATAMAIL

DataMail is leading to bridge the gap in between English and Non-English writing/reading population. DataMail brings an Email Address in the language of the users choice and allows communication to the world in preferred language. DataMail offers an Email address in your language.

Behind that is a company from India, XGENPLUS ([www.xgenplus.com](http://www.xgenplus.com))

# Thanks

- Any questions?
